

FADE TO BLUE

HANK SCHEER

Sarah knew she was putting her career at risk when she performed an unethical experiment in pursuit of an Alzheimer's cure, but she never thought it would put thousands of lives in danger.

Sarah has a wonderful boyfriend and a great career, but she's about to snap. Eager to find a cure for Alzheimer's disease and spend more time with Rogelio, she's hoping that the end to her brutal work schedule is just one miraculous breakthrough away. But when her project's funding comes into question, she desperately performs an experiment she has been forbidden from pursuing.

The ethics committee she can handle. After all, when her risky experiment pays off, they'll be throwing her a parade.

But nothing could have prepared her for Marcel.

ABOUT THE AUTHOR

Hank Scheer was born and raised in Minneapolis, Minnesota. He graduated from Central High School and attended 916 Vo-Tech Institute, where he studied electronics.

He worked for twenty-two years as a System Repairman at the USS-POSCO steel mill in Pittsburg, California, and was a member of United Steelworkers Local 1440.

After leaving the steel mill, he worked for ten years as an Instrumentation Tech at the Contra Costa Water District (IUOE Local 39).

Hank lives in Martinez, California, with his wife, Ellen Haywood, an electrician at the Pittsburg LMEC power plant. Now retired, he enjoys writing and recording music, world travel, biking, downhill skiing, and supporting other working people fighting for a better world.
